

Finding The Limits (The Limitless Trilogy Book 1)

Im just your typical modern American woman. I work hard and I know how to handle myself in the boardroom and the bedroom. My promotion kinda sucks and kinda doesnt; so yeah, its in London which is pretty grey and all, but its my chance to expand our company so I take it. And then he shows up. Andrew Walker-Wilkinson, all old-world charm and with a stubborn insistence on opening doors for me. Hes a dinosaur but hes hot. When he tells me to do something, my body wants to do it - even if my brain tells me to run. I figure he might be good for a bit of fun. A couple of dates, nothing heavy. I thought he was one of the few good guys and I was fast losing my heart to him. I didnt expect to end up in danger, snatched right out of my apartment and held in a country house - and when the perpetrators are the most powerful men in the City, not even the police can help. My involvement with him got me into this mess, so I dont think hes going to be the one to save me. Not unless I can convince him that he IS one of the good guys. This is a steamy romance novella. Its the first part of a trilogy and ends on a cliffhanger - only buy this if you want to be hooked and begging for more!
