

FOR THE LOVE OF CHEMISTRY

When Tommy Brayve moved up to Secondary School he was an ordinary, happy young boy, with a fascination for Chemistry. But before the end of the first year, both Tommy and Donald Dawson had left Secondary School forever. From then on, nothing about Tommys life would ever be ordinary again. Spending five years in Brassfield Academy, followed by five years in Prison, Tommy finally ends up in The British Army. The only constant in Tommys life is Chemistry. Making good friends and some enemies along the way, his roller coaster journey, transports him into situations he could never have imagined. His world is finally turned upside down when he discovers that his heart is torn in two.
