

Plant Biodiversity Conservation and Management

This is a textbook on Biodiversity, Conservation and Management for the undergraduate and post-graduate students in Botany. It covers syllabus of most of the Indian Universities on the above subject. It is written in simple and lucid manner. The book running to 122 pages covers Nature, Values and Distribution of Biodiversity, Conservation of Biodiversity, Global and National Biodiversity Conservation Initiatives and Remote Sensing and Plant Resource Management. The book is profusely illustrated. Several relevant examples are provided wherever necessary.
