

International Review Of Cytology, Volume 262: A Survey of Cell Biology (International Review of Cell and Molecular Biology)

International Review of Cytology presents current advances and comprehensive reviews in cell biology both plant and animal. Authored by some of the foremost scientists in the field, each volume provides up-to-date information and directions for future research. Articles in this volume include Adhesion Molecules and Other Secreted Host-interaction Determinants in Apicomplexa: Insights from Comparative Genomics; Cell Responses to Biomimetic Protein Scaffold Used in Tissue Repair and Engineering; New Insights into Glycosphingolipid Function Storage, Lipid Rafts and Translocators; Microscopic Morphology and the Origins of the Membrane Maturation Model of Golgi Apparatus Function; New Insights into the Macronuclear Development in Ciliates; Polarity Regulators and the Control of Epithelial Architecture, Cell Migration and Tumourigenesis.
