

## Difference, Dialogue, and Development: A Bakhtinian World

Difference, Dialogue, and Development is an in-depth exploration of the collected works of Mikhail Bakhtin to find relevance of key concepts of dialogism for understanding various aspects of human development. Taking the reality of differences in the world as a given, Bandlamudi argues that such a reality necessitates dialogue, and actively responding to that necessity leads to development. The varied works of Bakhtin that span several decades passing through the most tumultuous period in Russian history, are brought under one banner of three Ds Difference, Dialogue and Development and the composite features of the three Ds emerge as leitmotifs in every chapter.
