

Twenty-Five

Abigail Bronsen is sure her life is going nowhere when she turns twenty-five and realizes she hasn't done anything on a list of goals she made for herself as a teenager. Ben Harris is looking to find the one after his last girlfriend cheated on him. When they crash into each other, it appears they've both found exactly what they wanted. A year of firsts follows: first date, first kiss, first I love yous. The first fight is inevitable, but neither of them saw a breakup coming. When Abigail is offered a job overseas, they'll discover that no relationship is perfect and even true love sometimes finds itself separated by time and distance.
